

Angled Steel Dining Table

CHRISTIAN WOO

Angled Steel Dining Tables are produced with 2.25" thick solid hardwood. The design features legs which splay outward and turn to face each other in an animated assembly. Wooden planes are joined by 1/2" thick expanses of powder-coated steel. The tables are constructed using internal joinery and steel. The solid board length material provides the integral strength to span the given lengths.

All woods are FSC Certified. Standard with Matte Oil Hand Finish. Ships in three, easy-to-assemble pieces.

Hand-crafted in Vancouver, Canada

Commercial Application Finish: Add 10%
Low-Sheen, Low VOC, Acrylic Polyurethane

Size	Image	Dimensions:	Weight:	Finish	Wood	Price
